The Water Is Calling
2023 SWIM SPA GUIDE

Welcome To Hydropool

The pace of life has made it incredibly difficult to stay connected.

That's why we engineer our hot tubs and swim spas to unlock the power of water, so you can make meaningful connections with family, your friends, and yourself.

HYDROPOOL

THE WATER IS CALLING

Why Buy A Hydropool Swim Spa?

START YOUR DAY OFF RIGHT WITH THE PERFECT SWIM

Hydropool Swim Spas are the perfect way to swim every day. Imagine never having to turn, touch or push off from any wall. Our state-of-the-art swim current gives you the flexibility to adjust to your personal swim level, and the ability to focus on your stroke technique. Our Swim Jet Design provides a wider, deeper, smoother current, and our tank design has no hidden obstacles like steps or benches for your feet to hit in the swim lane. These elements working together gives you a superior swimming experience over any other swim spa available on the market.

OWNERSHIP MADE EASY IS BUILT IN

Our patented self-cleaning[†] feature minimizes maintenance, leaving you more time to train in your swim spa or enjoy your time with family and friends. You'll look forward to the times in your swim spa. Hydropool Swim Spas are also a great option for entertaining. Your guests are sure to leave with fond memories, every time.

FLEXIBILITY, PRACTICALITY AND NOT TO MENTION ENERGY EFFICIENCY

Whether it is a Play, Aquatic, or Executive Swim Spa, you will enjoy the best of all worlds, whether it's for fun or fitness. Our products will exceed your expectations while providing the best possible solution for your needs. The Hydropool Swim Spa's HydroWise Thermal Shield Technology with our energy-efficient components and our thick, energy-conserving hardcover, keeps operating costs to a minimum all year round. Being smaller than a conventional pool, our Swim Spas require less chemicals, less maintenance and less energy to heat and operate.

WE STAND BEHIND THE QUALITY OF OUR SWIM SPAS

We offer straightforward, no-nonsense protection. Hydropool offers an industry-leading guarantee on Hydropool Swim Spas - ask your retailer for details.

"The Swim Spa by Hydropool fits perfectly into our small backyard and has provided my family with all the benefits of a larger pool."

Innovation At The Heart Of Your Swim

1. V-TWIN JETS: The Patent Behind Our Jet Propulsion System

1.

The V-Twin Jets are the most powerful, predictable and non-turbulent jets you can buy.

a. Shredding The Vortex

Pumps or propellers create a spinning vortex of water when travelling up a pipe to the jet. The V-Twin Jet is designed to organize and shred the vortex using the combination of our Current Collector and Swim Fins, creating a smooth swim.

b. Doubling The Volume Of Water

The first “V” of the V-Twin jet accelerates the water, the second “V” then combines that water with the water drawn in from the swim gills to produce an amazing 1400 gallons of water. The highest volume of water in the industry.

2. FORM SWIM GOGGLES WEARABLE TECHNOLOGY The Ability To Track Your Swim Is Right In Front Of Your Eyes

2.

How do our new FORM® Swim Goggles work?

These swim goggles were developed in collaboration with top competitive swimmers and coaches. They are the only goggles built with a see-through real time display that can be viewed by your left or right eye, depending on your preference. FORM® Swim Goggles can show an array of metrics including your split times to your distance. They also have over 16 hours of battery life for a full and long-lasting swim.

So What Does That Mean For You The Swimmer?

- Fitness coach that swims with you.
- Optical display shows time, distance and pace.
- Real time metrics.
- Measure, track and customize your workouts through the app.

3. VFX: THE VARIABLE FLOW EXPERIENCE It's All About Control

This revolutionary VFX Control System makes is the most advanced pump management system in the world.

3.

a. The Most Energy Efficient Pump In The Industry

Saving up to 40% compared to any competition, the HydroPool VFX pumps deliver huge energy savings from one season to the next.

b. Built In Programmed Technology

The VFX system allows the user to pre-program up to four users with the topside control. The control also has four ready-set programs for any user to take advantage of at the touch of a button.

c. Precise Swim Current

The elimination of any water diversion creates a “Dead Centre” current. The combination of this and our Current Collector creates the most predictable swim current in the market.

What Type Of Swimmer Are You?

Find The Perfect Swim Spa For You And Your Family

When selecting a Hydropool Swim Spa, you will need to consider the pump design. Make sure the system you choose has enough power to deliver the results you want, whether you are an every day athlete, a triathlete, or just looking to enjoy some family fun. Next, look for a swim jet system that provides a smooth, turbulence-free swim current and provides a flow rate that is able to produce the current you expect to swim in.

If you need the ability to customize swims for multiple swimmers, you should consider the AquaTrainer or Executive Trainer models. The adjustability of the current is crucial for a high-level swimmer as it allows for both interval training and lower level options for all other swimmers.

HYDROPOOL EXCLUSIVE

Harness The Power Of Water With The Executive Trainer Swim System

The Executive Trainer Swim System makes this Hydropool's elite swim spa model, with its clean+ shell design in combination with our patented V-Twin Swim Jet technology and Current Collector. The Executive's VFX Control is fully programmable with four user programs and four preset programs, allowing each user to dial in the perfect swim. Making the Executive strong enough to power everyone up to competitive triathletes and challenging even for the world's most powerful swimmers. But also designed to build and sculpt your body for swim success en route to victory.

Hydropool Swim Spas collaborated with Triathlete Jodie Becker from Canada enabling her to train for the world triathlon championships in Dubai.

1. PUMP DESIGN Exclusive Variable Flow Experience Pumps

This swim spa has two 5hp VFX Pumps and one 4 hp Buoyancy Pump all located under the Executive Trainer's swim jets, producing the strongest, most predictable swim current on the market.

2. SWIM JET TECHNOLOGY Patented V-Twin Swim Jets

Provides the widest, smoothest and most predictable swim current of any swim spa. The unique V-Twin technology supercharges the swim current and generates over 1,400 gallons per minute, the highest volume of water you can buy.

3. FULLY PROGRAMMABLE Take Control Of Your Swim With The VFX Swim Control

Has the ability to simultaneously adjust the speed of both V-Twin Jets from 0 – 11 kph (0 – 6.84 mph) and can be adjusted for anyone from a novice level to a triathlete. It's the first swim spa with built-in technology that can track your speed, distance, time spent training and calories burned.

4. STREAMLINED SHELL DESIGN European Design

The shell design is open, barrier-free and tapered forcing the current to flow towards the current collector at the opposite end of the swim spa without obstruction.

5. TURBULENCE-FREE Patented Current Collector Technology

All of the water that is produced from the V-Twin jets and buoyancy jet is pushed towards the patented Current Collector. This reduces the possibility of any reflective wave occurring and eliminates turbulence created by any diversion of the water. Functioning like a conveyor belt, the "Throw and Catch" further eliminates turbulence.

6) FORM® SWIM GOGGLES The Swim Coach That Swims With You!

It's like having your Fitness Coach swim with you. FORM Smart Swim Goggles, with their optical display, shows you your time, distance and pace in real-time metrics right in front of your eyes. This allows you to measure, track and customize your workouts on the app.

16EX EXECUTIVE TRAINER

SWIM SPA *Powered by Self-Cleaning⁺ Technology*

With our 16EX Trainer, you'll receive more room for your total body workouts. Fully-jetted seats and a wider exercise area makes this model the best swim spa on the market. The patented Current Collector and backlit V-Twin Jets optimize the flow of water, allowing you to swim in much less turbulent water than competing swim spas. The 16EX Trainer features the smoothest, most predictable current, providing the best swim of any other spa on the market. Plus, you can still unwind with HydroMassage jets, which are ergonomically positioned.

Experience The Power Of Water With The Executive Sport Swim System

Redefining the Backyard Pool

The perfect pool, perfect home gym and perfect waterpark all-in-one. That is the only way to describe the Executive Sport Swim Spa. The streamlined clean shell design of this swim spa is tapered to allow the water current to flow unencumbered towards the current collector which then drives the water back up to the swim jets. This provides a smooth and predictable swim current for swimmers. The Executive Sport Swim Spa is the perfect place for families with children who are learning how to swim.

1. PUMP DESIGN* Produces A Strong Current

This swim spa has one AquaBoost Pump and one Buoyancy Pump all located under the Executive Sport's swim jets.

2. ACCUFLO SWIM JET TECHNOLOGY Great For Exercise

The two AccuFlo Jets produce the swim current, and the jet's laminar design flattens the water flow for a much smoother swim.

3. CUSTOMIZABLE CURRENT Take Control Of Your Swim

You can dial in your swim level and provide a fantastic swim for everyone in your family.

4. STREAMLINED SHELL DESIGN European Inspired

The tapered shell design allows water to flow towards the Current Collector unobstructed, producing the most predictable swim on the market.

5. TURBULENCE-FREE Patented Current Collector Technology

All of the water that is produced from the AccuFlo swim jets and buoyancy jet is pushed towards the patented Current Collector. This eliminates the possibility of any reflective wave from occurring and eliminates turbulence created by any diversion of the water. Functioning like a conveyor belt, the "Throw and Catch" further eliminates any turbulence.

* The power levels indicated of the pumps are for North America.

16EX EXECUTIVE SPORT

SWIM SPA *Powered by Self-Cleaning⁺ Technology*

The ultimate fitness and hydromassage pool, the 16EX Sport delivers all the fitness and fun of our 14' AquaSport models, plus extra room to stretch and workout. With two distinct ergonomically designed hydromassage seats and a unique jet configuration for total-body relaxation, you'll never want to leave your tub. Enjoy soothing aquatic therapy after every swim or just after a long day. The 16EX Sport combines functionality with beauty. The steel-framed cabinet offers a streamlined, modern styling made of state-of-the-art, durable materials that are virtually maintenance-free.

LIVE
YOUR LIFE
AQUATIC.

The Aquatic AquaTrainer Swim System

The Aquatic AquaTrainer Swim Spa is the perfect way to swim every day. Imagine never having to turn, touch or push off from any wall. Our swim current gives you the ability to focus on your stroke technique while enjoying the fluidity of the swim current, adjusted to your personal swim level. The Aquatic Series also provides great seating flexibility and ample options to further enjoy this swim spa with family and friends.

1. PUMP DESIGN Produces A Strong Current

This swim spa has two AquaBoost Pumps and one Buoyancy Pump all located under the Aquatic Trainer's swim jets for better performance.

2. HYDRAULICS Produce A Smoother Current

The oversized intake and returns produce more volume of water. Combined with the use of a unique sweep, 90° elbows produce a higher volume of water.

3. V-TWIN JETS Technology For A Turbulence-Free Swim

The patented V-Twin jet technology supercharges the swim current, producing over 1,400 gallons per minute. The highest volume on the market, this swim spa produces a wider, deeper and smoother current than any other swim system. These swim jets are also backlit to light the swim current to help you have a great swim at any time of the day.

4. PROGRAMMABLE AquaPro/Ax Control

Provides two Users Programs and two Preset Programs: The Hill Climb & The Interval Program. The swim current ranges from zero to 10 kph (0 - 6.2 mph) with ten speed levels. The control also tracks your calories, time, distance, and speed and provides visual motivation for the swimmer. The control is adjustable to the level of any swimmer, from the novice to the triathlete.

5. AQUACHANNEL SHELL With Performance Flow Intakes

The shell hips are designed to create an eddy in the seating area. The Performance Flow Intakes reduce any reflective wave to help keep the swimmer in the swim lane. The Aquatic Swim Spa Shell design has one of the largest unobstructed swim tanks on the market. The shell also includes Hip Jets that stabilize the swimmer in the swim lane.

6. FORM® SWIM GOGGLES The Swim Coach That Swims With You!

It's like having your own personal Fitness Coach swim with you. FORM® Swim Goggles, with their optical display, shows you your time, distance and pace in real time metrics. This allows you to measure, track and customize your workouts on the app in real time.

14AX AQUATRAINER

SWIM SPA Powered by *Self-Cleaning⁺ Technology*

The ALL NEW 14AX AquaTrainer features a new ergonomic design and swim tank design, along with numerous engineering innovations that include four Hydrotherapy Seats, each with specialized Zone Therapy.

The swim has gone to new depths with a 52.75 inch deep swim tank.

Our two high-performance adjustable V-Twin swim jets, all backed up by our new Dual Performance Flow Intakes, dramatically reduces the reflective wave effect. The swim tank also features a new soft stride mat on the swim tank floor.

19DTAX AQUATRAINER

SWIM SPA Powered by Self-Cleaning[†] Technology

This Self-Cleaning[†] AquaTrainer 19DTAX has it all and then some. This swim spa has all the exercise features, with variable resistant swim current. Plus, it contains the thigh abductor jets for a lower body massage, and includes a full lounge and two full body massage hydrotherapy seats. This model has separately controlled and operated swim spa and hot tub areas that deliver the ultimate in flexibility in a dual zone. It's an aquatic all-in-one gym, providing a great training centre for the individual athlete who still wants to have fun with their family. Both the swim spa and hot tub feature our exclusive Self-Cleaning[†] System.

HYDROPOOL EXCLUSIVE

The Aquatic AquaSport Swim System

This Is The Ideal Universal Aquatic Gym

This swim spa has a generous streamlined swim tank area and a flat ergonomically designed anti-slip floor that allows for a variety of fitness exercises. Plus, you can create the perfect training environment through personalized water temperature settings. The intensity of your workout is controlled by the speed of your movements and the velocity of the current.

Additionally, the swim spa is a safe and easy environment. Perfect for teaching the kids how to swim.

1. PUMP DESIGN* Produces A Strong Current

This swim spa has one AquaBoost Pump producing up to 360 Gallons per minute and one Buoyancy Pump all located under the AquaSport's swim jets.

2. EFFECTIVE DESIGN Provides More Efficient Hydraulics

Suctions are located in the Performance Flo Intakes to eliminate turbulence and the oversized intakes allows the return pipes to move more volumes of water. These Evergreen pumps use 30% less amperage than any traditional pump.

3) ACCUFLO SWIM JETS Slipstream Swim Jet Technology

The two AccuFlo Jets produce the swim current while their honey comb design flattens the water flow for a smoother swim and is great for those that do aquatic exercise.

4) JetFlex Swim System CUSTOMIZABLE CURRENT

The system produces 5 kph (3.5 mph) of swim current and is fully adjustable for the user, allowing varying flows of water.

5) AQUACHANNEL SHELL Complete Loop Shell Design

The shell hips are designed to create an eddy in the seating area. The Performance Flow Intakes reduce any reflective wave to help keep the swimmer in the swim lane. The Aquatic Swim Spa Shell design has one of the largest unobstructed swim tanks on the market. The shell also includes Hip Jets that stabilize the swimmer in the swim lane.

* The power levels indicated of the pumps are for North America.

14AX AQUASPORT

SWIM SPA *Powered by Self-Cleaning⁺ Technology*

The 14AX AquaSport features a new ergonomic design and swim tank design along with numerous engineering innovations that include four Hydrotherapy Seats, each with customized Zone Therapy. The swim has gone to new depths with a 53-inch deep swim tank. It has two AccuFlo jets that deliver a smooth swim and one AquaStream jet, all backed up by our new Dual Performance Flow Intakes that dramatically reduce the reflective wave effect. The swim tank features new soft stride mats on the floor.

All encompassed by our new acrylic lip edge design.

Raising The Standards In Comfort, Design & Massage

Hydropool is one of the largest swim spa manufacturers in the world. We are committed to building superior swim spas utilizing the latest technologies, with the newest environmental practices. Our research and development team is constantly striving to be on the leading edge of innovation and design.

STEP INTO YOUR COMFORT ZONE

1. Recessed Jetting
2. Ergonomically Designed Seating
3. Safety Steps inside the Swim Spa
4. Convenient Ice Bucket

DESIGNED WITH YOU IN MIND

5. A brushed aluminum cabinet accent strip made of a plastic substrate
6. Bellagio Package

Science Of Immersion In An Aquatic Collection Swim Spa

Through our extensive knowledge of hydrotherapy and the human body's ergonomics. Hydropool has taken the science of immersion to the next level and developed a line of swim spas that provides Zone Therapy that interacts naturally and effectively with the human body. Hydropool Zone Therapy is designed around you and your hot tub usage to help you benefit from a general sense of well-being. We are all unique individuals genetically and with varying lifestyles that all play a role in defining our sensitivity to a release of various tensions.

ZONE THERAPY

ZONE 1 CORE ZONE

Activation of the paravertebral muscles

Vertebral fatigue contributes to headaches. This zone releases tension in the dorsal muscles.

ZONE 2 OVERALL BODY ZONE

Activation of back and lumbar muscles

Promotes improved circulation in the lower part of the body and allows for venous return and to lower venous and capillary pressures in the feet and lower limbs.

ZONE 3 UPPER BACK ZONE

Activation of upper back, neck and shoulder muscles

Eliminates tension in trapezius muscles and neck by releasing tensions in the solar plexus area.

ZONE 4 REFLEXOLOGY

Activation of foot arch muscles

Deeply massages the small venous areas in your foot arch offering relief as your feet take the brunt of most sports.

Each Zone Has Four Features, Designed To Maximize Your Hydrotherapy:

1. TYPE OF JETS

The type of jet is crucial to a proper massage. Our E-55 jet is designed purposely for a deep tissue massage and our E-40 Jet is designed for a more gentle massage.

2. JET PLACEMENT

Our hydrotherapy jets are specifically designed for each zone so that the superior benefits of hydrotherapy are achieved. Our different jet patterns are designed to work different muscle groups.

3. SEATING DESIGNED AROUND YOU

Our customized seats are designed to work with your body's natural structure and functions to provide maximum comfort and functionality. The ergonomic seats support the skeletal structure so that the muscular system does not have to; it removes stress from muscles and joints so that the body can relax.

4. DURATION IN SEAT

The last component of Zone Therapy is the duration of time that a person spends in each seat (or Zone) of the swim spa. The duration in seat combined with the sequence of seats is critical to the performance of the Zone Therapy.

HYDROPOOL EXCLUSIVE FEATURE

Our Exclusive Self-Cleaning[†] Technology

We know that one of the big challenges for our customers is the time they need to invest in maintenance. Now, with our PATENTED Self-Cleaning[†] Technology, Hydromax has created the world's easiest swim spa to maintain. This Self-Cleaning[†] System cleans[†] 100% of the water every 40 minutes. That's an incredible three times in two hours!

Let's be clear, this is not a simple vacuum for your swim spa, it's innovation throughout the entire system.

Did You Know...

WITH THE QUICK DRAIN SYSTEM THERE IS:

No Shop-Vac or Sump pump needed. It pumps the swim spa water out at any distance and any grade. This system saves time and the hassle associated with swim spa maintenance.

THE HYDROPOOL PUREWATER SYSTEM:

This is a very efficient water purification system by combining the Self-Cleaning[†] technology with UV and Ozone Water treatments.

THE SELF-CLEANING[†] SYSTEM

**1. FILTRATION JETS
Optimized Surface Filtration**

The design of our seating and the strategically placed jets create a continuous flow of water pushing all floating debris towards the high-flow skimmer. This design feature boosts the efficiency of our Self-Cleaning System.

**2. HIGH FLOW SKIMMER & PRE-FILTER
Cleans[†] Across The Surface**

Removes floating debris and oils and prevents larger debris from clogging the pump and heater. This increases filtration and moves debris into the Pre-Filter and extends micro-filter cleaning[†] cycles.

**3. HYDROCLEAN[†] FLOOR VACUUM
Cleans[†] Across The Floor**

This system circulates water care products more efficiently and removes the heavy debris (such as dirt and grit). The filtration jet located on the bottom step gradually moves any non-floating floor debris towards the HydroClean[†] Floor Vacuum where it is removed.

**4. PRESSURIZED MICRO-FILTRATION
Cleans[†] 100% Of The Water
Every 40 Minutes**

HydroClean[†] Filter is built to make cleaning[†] easy with extended cleaning[†] cycles and easy access while out of contact and sight of bathers. During swim spa use, no odors are released.

**5. SELF-CLEAN[†] MODE INDICATOR
Always On The Job**

Our Worry-Free Indicator indicates the Self-Clean[†] and EcoHeat Exchange system are both active, reassuring your family's safety and protection.

**6. THE HYDROPOOL PUREWATER SYSTEM
ADVANCED SYSTEM**

Designed to keep your Hydromax Hot Tub water clean[†] and clear the way nature intended.

**7. CUSTOMIZE YOUR WATERCARE SYSTEM
Worry-Free & Convenient**

- Hydromax PureWater System
- PurEssence WaterCare System
- EZWatercare System

HYDROPOOL EXCLUSIVE FEATURE

Made In Canada For Canadian Winters

At Hydropool, our world is our water. We not only engineer our swim spas to care for water, clean⁺ it and preserve it for generations to come but our commitment to a healthy planet extends beyond water.

One of the most frequent questions we're asked is about the cost of keeping your swim spa at those ideal temperatures (around 86° F/30° C). Thanks to our innovative HydroWise Energy Efficient Insulation and our superior four inch HydroWise Hard Cover, we've mastered the art of keeping the heat in and the cold out. Combine this with the fact that our swim spas are engineered to be the most energy efficient in the world. Meaning, you can enjoy your swim spa for just pennies a day.

We have always been developing new ways to better our energy efficiency...

- 1980 Engineered the first Self-Cleaning⁺ System to better energy efficiency.
- 1981 Spray Foam insulation on shell to improve energy efficiency.
- 1992 First use of Full Foam Insulation.
- 1996 Changed to perimeter foam.
- 2000 Perimeter foam to HydroWise Double Thermal Shield System.
- 2005 Introduction of EcoHeat Exchange technology.
- 2008 Launch of Evergreen Carbon Neutral Program.
- 2010 Introduction of Evergreen Pump & black pipe technology.
- 2013 Addition of Low Voltage Self-Clean⁺ Filtration pump.
- 2017 New Low Amperage pump.
- 2018 Introduction of the Triple Thermal Shield System.
- 2019 Introduced the PureWater System.

1. SELF-CLEANING⁺ TECHNOLOGY Designed To Extend Your Water Life

The water in a Hydropool Swim Spa will last twice as long as other brands due to our patented Self-Cleaning⁺ filtration system and Pure Water technology.

COMMERCIAL GRADE FILTRATION Hydropool Swim Spas Self-Cleaning⁺ technology cleans⁺ 100 percent of the water in only 40 minutes which means you will have cleaner⁺ water faster.

PUREWATER SYSTEM Designed to keep your Hydropool Hot Tub water clean⁺ and clear the way nature intended.

LESS WATER TURNOVER The combination of Self-Cleaning⁺ technology and the PureWater system means that the swim spa will require less chemicals, and fewer drain and fills yearly. This will extend your water life and save you money.

2. POLYMER BASE & EVERLAST CABINETRY Built To Last

PROTECTION The fully sealed polymer base and Everlast cabinets are designed to keep the warm air in and the elements & rodents out.

CLEAN MANUFACTURING Made from 100% recycled and recyclable material Hydropool is committed to reduce, reuse and recycle material to eliminate as much waste as possible.

3. TRIPLE THERMAL SHIELD SYSTEM Engineered To Lower Your Energy Costs

NASA TECHNOLOGY Our Triple Thermal Shield System reflects the residual heat of the pumps, shell and plumbing back into the swim spa. This means, the heater doesn't need to turn on as often, saving you money.

COMPARE AGAINST THE REST Hydropool Swim Spas are ranked as one of the top four most energy efficient swim spas in the world by the California Energy Commission. Please Consult our Hydrowise Energy Guide.

4. ECOHEAT EXCHANGE TECHNOLOGY Hybrid Heating

HYDROWISE THERMAL VENTS Each pump creates 1.5 kw of waste heat, the EcoHeat Exchange technology helps control the temperature of the swim spa without the heater ever coming on. The fully adjustable HydroWise Thermal Vents maximize energy efficiency for any season and any climate.

5. HYDROWISE HARD COVER Locks Heat In Keeps The Element Out

MADE FOR CANADIAN WINTERS The Hydropool HydroWise Hard Cover is a heavy duty tapered locking safety hard cover that has an insulated baffle in the fold area that is designed to be the most energy efficient hard cover in the industry. This safety cover locks on both sides to keep animals out and children safe.

Hydropool Cross Training Systems

WATER HAS BUILT-IN RESISTANCE

Because you're moving your body through water instead of through air, you're working harder. This resistance is great for building all-around strength and endurance. You can adjust the resistance: Depending on your speed, position, or form in the water, the resistance you face is dynamic. Working out in your own Swim Spa has a lot of benefits.

1. HOME GYM

Work Out In The Convenience Of Your Own Home

You choose when to work out in your swim spa and it is easy to use – No complicated machinery. You work out in the privacy of your own yard or home.

2. LOW IMPACT EXERCISE

Easy On The Body High-Intensity Training

Aquatic exercise strengthens your muscles and improves your cardio fitness. Aquatic exercise does not subject your body to the wear and tear of high impact land-based exercise.

3. BUILT IN TREADMILL TECHNOLOGY

Easy to use

4. DRAG RESISTANCE TRAINING PROGRAMS

The HydroRevolution patented equipment capitalize on what we call “the principal of fluid omni-directional drag resistance” in water. Quite simply this means being able to work a muscle group equally and smoothly in any direction.

- HydroRevolution 21 Day Challenge
- HydroRevolution Box Fit Program
- Pre Natal Aquatic Fitness Program

5. FREE TRAINING VIDEOS

We have the largest Aquatic Fitness Training video library in the industry all available to you.

HydroRevolution

21-DAY DRAG RESISTANCE WORKOUT CHALLENGE

Don't be sucked into a workout that promises a “toned body” by the end of it. There's a more important reason to exercise: It makes you feel great. Good mental health is just as important as good physical health, and exercise is crucial to getting both. The 21-day workout challenge Jodie created below celebrates all the good stuff that comes with improving your fitness including more energy, better health, and the motivation to keep coming back for more. So while this routine might get you closer to physical goals, it can also bring about invisible changes.

This 21-day workout plan is designed for all fitness levels, so just choose the exercise and cardio variations that are right for you. Trying to make exercise a lifelong habit? Use these three weeks as a jumping-off point. If you're already in your own workout groove, there are plenty of challenges here to boost your results.

THE 21 DAY CHALLENGE:

- DAY 1:** Total Body Check In, *Goal Setting*
- DAY 2:** 20 min. Workout, *Intro Into Mindfulness*
- DAY 3:** Intro into High-intensity Interval Training
- DAY 4:** Gentle Cardio, *Aquatic Yoga cool down*
- DAY 5:** Building Strength For Life, *Nutrition & Hydration*
- DAY 6:** Movement is A Mindset
- DAY 7:** A Triathletes Workout, *Stress Reducing Stretch*
- DAY 8:** Gentle Cardio
- DAY 9:** All about High-intensity Interval Training
- DAY 10:** Combo Workout, *Meditation*
- DAY 11:** 20 min. Workout, *Outdoors and vitality*
- DAY 12:** Movement is A Mindset
- DAY 13:** Mobility & Stretching, *Breathwork Overview*
- DAY 14:** Building Strength, *Incorporating protein into your meals*
- DAY 15:** 20 min. Workout
- DAY 16:** All about High-intensity Interval Training
- DAY 17:** Gentle Cardio, *Aquatic Yoga cooldown*
- DAY 18:** Mobility & Stretching, *Gratitude*
- DAY 19:** All about High-intensity Interval Training
- DAY 20:** Strength Session, *Favourite meal ideas for swimmers*
- DAY 21:** Total Body Check In, *Goal Setting Review*

Check with your doctor first before doing any prenatal exercises in a swim spa.

EXECUTIVE & AQUATIC SWIMSPA COLLECTIONS

Options & Upgrades

1. SHELL OPTIONS Standard Acrylic Colors*

Your Executive and Aquatic Self-Cleaning+ Swim Spas Shells are available in these three colors.

2. CABINET OPTION Everlast Cabinetry With Removable Panels

Hydropool Swim Spas come with our maintenance-free Everlast material. This premium quality cabinetry is installed onto a sturdy galvanized steel substructure for the ultimate in durability. If you require access to the swim spa plumbing or equipment, all panels are removable for easy access.

COVER OPTIONS

3a. Insulated Hard Cover

This hard cover option is made from durable marine-grade vinyl. When installed in the closed position it completely seals in the top of the swim spa for improved energy efficiency. Cover Locks exist for securing the cover and keep curious children and pets out for improved safety and security.

3b. Rollaway Spa Cover

This next generation one-piece spa cover creates a complete seal on top of the swim spa; locking in the heat, lowering energy consumption and cost. The Rollaway Spa Cover design enables one person to roll the cover off the swim spa in less than 60 seconds, providing immediate access to the swim spa.

3c. Floating Summer Cover

Keeping your swim spa warm and ready for spontaneous usage while conserving energy and staying secure to prevent unwanted debris from entering your swim spa.

AQUAFITNESS OPTIONS

4. FORM® Smart Swim Goggles

The only swim goggles with a smart display that delivers metrics like split times and distance as you swim. The see-through display can be worn over the left or right eye. FORM® Swim Goggles have a battery life of 16 hours, perfect for even the longest swim. These goggles are the missing piece in every swimmer's swim bag. FORM® Swim Goggles are the swim coach that swims with you. After your swim, the app measures and tracks your workouts, making for a customizable swim every time.

*Swim Spa shell and cabinet colors may not be exactly as shown due to printing.

5. Aqua-Rowing Kit

Is a combination of stainless steel oars and resistance bands that attach to swivel anchors, allowing for a full rowing motion. This is an excellent upper body and abdominal workout.

6. Hydro Revolution Fitness Package

The addition of this package turns any swim spa into an Aquatic Universal Gym. The resistance bands add another dimension to your workout and can be used anywhere in your swim spa within the exercise or swim tank area. These bands create a full range of motion and help promote muscular development.

Options & Upgrades Continued...

7. 48" Wall-Mounted Exercise Bar

These can be mounted within the interior of the swim spa and is intended to act as a stabilizing bar for stretching and various other activities. Alternatively, the wall-mounted 48" exercise bar can be installed on a nearby wall for safety purposes as well.

8. WhiteWater Option

Add fun to any swim with the addition of the whitewater option. Imagine swimming in the surf at the ocean or in Class 5 rapids. The kids will never have so much fun.*

* Cannot be ordered with HydroFlex Air Therapy Option

HYDROTHERAPY OPTION

9. HydroFlex Air Therapy

Every Variable Speed Air Therapy System is designed to offer you a privileged moment. Up to 10,000 perfectly aimed air bubbles apply ideal pressure to provide you with an encompassing therapeutic massage every time.

* Cannot be ordered with white water option

LIGHTING OPTIONS

10. Northern Lights

This upgrade to LED lights offers strategically placed lighting that illuminates all of the top-mounted control valves. They are brilliantly colored and sequence through a range of options, or can be locked on to one color. They are also complemented by LED lights that illuminate the waterfall jet(s) discreetly from behind.

STEP OPTIONS

11. Five-Tier Universal Step

18. All Backed by Industry-Leading Guarantee

Hydropool Swim Spas are built to stand the test of time and offer an industry-leading guarantee package. For details on coverage inquire with your local Hydropool retailer.

LET YOUR
INNER CHILD
OUT TO PLAY.

The AquaPlay Swim Spa

This is the perfect mini pool for family fun

The AquaPlay Swim Spa has a generous streamlined swim tank area with plenty of seating for the whole family. The swim tank floor has an anti-slip floor that allows for a variety of fitness routines, jogging in place, BoxFit or Aquatic Cross Train for a great cardiovascular workout. The intensity of your workout is controlled by the speed of your movements and the velocity of the current. You can swim stationary laps for a full body workout, then relax in the contoured seating and enjoy a massage with the built-in hydrotherapy while the rest of the family plays on.

13FFP AQUAPLAY SWIM SPA

The ideal backyard pool for fitness, fun and exercise, the 13FFP AquaPlay Swim Spa will more than suit any active lifestyle. This model features two swim jets that mimic the natural resistance of water to help you get the most out of your swim or workout. The contoured seating and massaging jets offer built-in hydrotherapy and relaxation.

AquaPlay Swim Spa Collection Standard Features and Options

1. SHELL Standard Acrylic Colour

Your AquaPlay Swim Spa is available in Silver Marble only.

2. CABINET Everlast Cabinetry with Removable Panels

Your AquaPlay Swim Spa comes with our maintenance-free grey Everlast finish. This premium-quality cabinetry is embossed with a realistic wood finish.

COVER OPTIONS

3a. Insulated Hard Cover

This hard cover option is made from durable marine-grade vinyl. When installed in the closed position it completely seals the top of the swim spa for improved energy efficiency. The cover locks down for safety and security.

3b. Rollaway Spa Cover

This one-piece spa cover creates a complete seal at the top of the swim spa, locking in the heat and lowering energy consumption and cost. The cover design enables one person to roll the cover off the swim spa in under 60 secs.

3c. Floating Summer Cover

Keeping your swim spa warm and ready for immediate usage while conserving energy and staying secure to prevent unwanted debris from entering your swim spa.

AQUAFITNESS OPTIONS

4. Aqua-Rowing Kit

A combination of stainless steel oars and resistance bands that attach to swivel anchors allowing a full rowing motion.

5. Hydro Revolution Fitness Package

The addition of this package turns any swim spa into an Aquatic Universal Gym. The resistance bands add another dimension to your workout and can be used anywhere in your swim spa within the exercise or swim tank area.

6. 24" Wall-Mounted Exercise Bar

These can be mounted within the interior of the swim spa and are intended to act as a stabilizing bar for safety, stretching and various other exercise activities.

STEP OPTIONS

7. Five-Tier Universal Step

This optional five-tier Universal step makes entering and exiting your swim spa safe & easy. Available in a black finish only.

Our History With Water

Over 40 years ago, a father and son had a vision that the power of water could play an instrumental role in a family's everyday life. With their extensive background and knowledge in the swimming pool industry, they decided to expand their business to include both hot tubs and swim spas.

They started as retailers with a company called California Spa, Sauna and Fitness in 1978. This was the very first retailer of hot tubs in Eastern Canada. It was there that Dale and Fred developed their love for the retail side of the business. Quickly realizing the potential for hot tubs, Hydropool was formed in 1980. It quickly became one of the largest manufacturers of hot tubs in North America.

In 1995, Hydropool saw the potential of swim spas, and started to manufacture its first product, the AquaTrainer.

Hydropool's growth worldwide has now reached over 400 independent retailers in 60 countries. Hydropool recently added a new 66,000 sq. ft. swim spa manufacturing facility and a new 101,000 sq. ft. parts distribution warehouse. This allows Hydropool to continue to expand to successfully meet all of our consumers' needs. Each of our retailers are professionally trained to assist in selecting your ideal hot tub or swim spa to match your budget and lifestyle needs.

Hydropool Hot Tubs and Swim Spas are manufactured in Mississauga, Ontario, Canada, by experienced designers and engineers. We're always striving to exceed our customer's expectations.

Sharing The Power Of Water Around The Globe

We have been sharing our creations and innovations with water through our worldwide network of retailers for more than 40 years.

† Clean is defined as the removal of microscopic (down to 3 µm level, varies by model) debris from the water. Ozone aids in the grouping of small debris. Once combined, the debris can be more easily caught by the filtration process. For more energy rating and HydroGuide information, please refer to our web site at www.hydropoolhottubs.com.
